

I would like to take this opportunity to thank you for your ongoing support and provide an update on how COVID-19 is affecting business at O Bar and Dining and the practical measures we have undertaken during this unprecedented situation.

O Bar and Dining remains **OPEN**. We are committed and will continue to focus on delivering an exceptional guest experience now and into the future.

We have never experienced a global event like this in our lifetime. These are extraordinary times and all we can do as a society is navigate this rapidly changing situation to the best of our ability and adapt to every situation that presents itself.

### **Health and hygiene practices**

It goes without saying it's our number one priority. This has always been of high importance and we will continue to adhere to our strict policies and take extra precautions to ensure a safe and sanitised environment for all our customers and staff. We ask that all guests use the sanitisers provided upon arrival and during their stay.

### **Social distancing - 1.5 metres between tables**

We have space in abundance and will be using the 1000 sqm venue to our advantage to try and adhere to the social distancing advice.

We have removed furniture in the Restaurant and Lounge Bar to allow for over 1.5m of distance between tables and fellow guests. This extra space will also work very comfortably in standing cocktail style formats.

### **Indoor gatherings – limited to 100**

It was announced yesterday that indoor venues are restricted to gatherings of 100 or less. This is still somewhat ambiguous and until we will get a better understanding how it applies on a practical level, we will be shaping and staggering our reservations to ensure we comply with the current directive.

Please contact us on **02 9247 9777** with any questions and concerns or if you have any special booking requests.

Best wishes for the well-being and health of you, your family and friends.

**Michael Moore**
